Mrs. Poore was in her 32nd year, and leaves a husband, two children and mother to grieve her lose. Over a year ago she had a severe attack of grip, and her constitution being weak she never recovered from it. She had a gentle, kind and loving disposition, and was loved by all who knew her. Mrs. Mattie Chipley died at her home on McDuffie street last Sunday night about 12.30 o'clock, aged about 55 years. Mrs. Chipley was a widow, and resided with a maiden sister, Miss Susan Wilson. She had been in feeble health for several months, but her condition was not considered serious until about three weeks ago. Last Friday night, between 9 and 10 o'clock, a small cyclone passed through a section about four miles north of the city. Brown, on Mr. Luther Burriss' plautation, was tern from its foundation and completely wrecked. the timbers and the furniture of the house being scattered in eyery direction. The outhouses were also demolished. Mr. Brown and his family were away from home at the time. Had they been at home the entire family would have no doubt been killed. Considerable timber was blown down. Mr. Wm. Brown's orchard was destroyed as well as the fences around his premises Iuside his house some glassware was shaken from a shelf and broken. About the same hour the wind was very high in other sections, but we have heard of no further damage.

The Intelligences has received a private letter from Maj. A. Q. Hill, of Calsis, 1865-66 with the 1st battalion of Maine Volinteers. Maj. Hill says: "I have a lively ecollection of my sojourn in Anderson in 1865 66, and as Quarter Master had to deal with you all. I gained no friends mong those I wished to, but had to content myself with those that I could not help but despise." He says he was in the 1861 until the close and mentions residents of Anderson during his sojourn here. Two of these citizens are still residents of Anderson. They remember Maj. Hill very well, and speak very highly of him. Mai. Hill says he is a Democrat and offers to send the INTELLIGENCER something for publication. We would be pleased to hear from him, and can assure him that should he eyer visit Anderson he would be warmly welcomed and would meet with the cleverest people to be found in Grover Cleveland's whole country.

W. R. McAdams, Jr., a most exhad the misfortune to have his wagon almost toru to pieces on South Main street last Thursday afternoon. He was going out of the city, on his way home, with his wagon loaded with supplies, and was driving a team of three mules. Just as he began ascending the hill at the P. M. I. a bicyclist came down the street and his team became frightened. The mule in the lead made a sudden turn and was followed by the other two mules, and, in ess time than it takes to write it, the wagon was badly demolished. Mr. Mc-Adams at once brought his demolished wagon to the shops, and it cost him about fifteen dollars to have it repaired. The bicyclist refused to even pay for half of the damage, which falls right heavy on Mr. McAdams, who is a poor man. Bicyclists will have to be more careful in riding through the streets of the city. Such accidents as this will bring some of them into the Mayor's Court, where they will be made to pay right dearly for their

The Atlanta Constitution, in speaking of his entertainment, says: "An evening with Thomas Nelson Page is something that will be remembered as long as life lasts. How many have read his charming stories, so fascinatingly illustrating the simple customs and faith of the old time Southern gentlemen as they followed with thrift and industry their different pursuits-read them with rapture and delight until their very lives seemed taken back to the dear, dead old days of negro slavery-read them through and through, ceasing only now and then to wipe away a tear, born of tender pathos, or to lay aside the book laughing immoderately at the genuine humor abundant in its pages? But to hear him! To hear the man himself who wrote and felt these things-his apt and masterly power to speak the old negro dialect; his natural Southern accent-it is as near as real life and 'word life' ever got to each other, in

from 9 a. m. to 5 p. m. It will be wondered why the City refused to vote \$50,000 for this purpose when \$75,000 was offered last year. Perhaps the reason may be found in this: It was thought that it would be useless to offer less than \$50,000. The City already has a bonded debt of \$34,000. The two debts, if \$50,000 was now subscribed, would place a total debt of \$84, 000 on the city. So large a debt would tions for other enterprises now in contemplation, or from making improve ments that may be needed soon. The City, therefore, decided that she could not afford to secure the College to the exclusion of other desirable enterprises.
